

Strong Community Partners Small Technology Grant

£1000 Grant for a digital access initiative in Harrow

Version 1, an organisation that drives customer success through 25 years of market leadership and innovation in IT services, are pleased to offer a small grant to an organisation improving lives in Harrow.

Are you a start-up, social enterprise or charity with an idea to help improve access to technology, driving digital skills and employability for the people of Harrow? Perhaps you are developing an app to improve access to the town centre for people with disabilities or a charity that would like to provide training for their volunteers to support their service users with technology: whatever your technology-focused idea to help improve digital access in Harrow, we want to hear about it.

Let us know in no more than 500 words:

- How will your organisation use the £1000 grant?
- Who are the people you are hoping to help with the grant?
- What impact do you expect the initiative to have?
- How will you measure success? What methods will you use to gather feedback?

Submit your proposal in word or pdf [here](#) by 4.30pm 28th February, 2022.

Selection Criteria

- Grant used to advance employability and skills of people in Harrow through digital access
- Innovation of concept
- Impact the grant is expected to have
- Ability to measure the success of the initiative

The panel

Applications will be selected based on the innovation of the concept, the impact the initiative is expected to have and the ability of organisations to complete the initiative and measure success.

The selection board will contain representatives from Version 1.

Submissions will be accepted until 4.30pm 28th February, 2022.

Organisations will be notified of the board's decision no later than 14th March 2022.
