## The National Lottery Community Foundation

The National Lottery Community Foundation will be speaking about their new strategy: "It starts with community". Social connections and community activities are at the heart of creating healthier, happier lives and a flourishing society. That's why The National Lottery Community Fund supports amazing community-led projects. And why we're looking to make a bigger difference in the years ahead, by listening and responding to communities and by focusing on supporting bolder change.

Thanks to National Lottery players, we plan to distribute at least £4 billion of funding by 2030. Supporting projects that will create resilient communities that are more inclusive and environmentally sustainable. Projects that will strengthen society and improve lives across the UK".
