Spear Programme stories

Fisa

"After my brother passed away, I was kicked out of home and gave up on school. I felt lonely, angry, and like a failure. My life changed because of the Spear Programme - it gave me all the direction that I needed. I now have hope for the future - my family is so proud of me for how far I've come."

Fisa is employed as a Researcher at Kea Consultants recruitment agency.

Connor

"I had recently come out of prison, and was battling with bad mental health. Both of these were really challenging - especially in the midst of coronavirus. My follow-on support from my Spear coaches really helped me stay motivated to look for work independently and attend interviews."

Connor is now working in general maintenance for the ACE Group.
